REASONS FOR ALLOWANCE

1. Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a method for manufacturing a liquid crystal display device comprising a combination of various elements and steps as claimed, more specifically, a complete evaporation heating step of further heating the substrate having the spacers aggregated in the predetermined range to completely evaporate the droplets.

Utsumi ('521), Sakamaki ('278), Ono ('442) or Ishimaru ('JP 11-281985, IDS reference) each discloses a method for manufacturing a liquid crystal display device comprising the substrate is heated to evaporate the droplets and arrange the spacers on the substrate. However, none discloses: 'an aggregation heating step of heating the substrate to evaporate the droplets to an extent that the spacers discharged to the substrate aggregate within a predetermined range, *and a complete evaporation heating step of further heating the substrate having the spacers aggregated in the predetermined range to completely evaporate the droplets*'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
